Notes:

The MSCI World ex US Index measures the equity market performance of developed markets excluding the United States. The MSCI All Country World ex US Index measures the equity market performance of both developed markets (excluding the United States) and emerging markets.

Index and index data indicated by italic text. Returns shown in percent. Returns of one year or longer are annualized. Returns do not reflect the deduction of investment advisory fees. Index used for comparison is deemed the best available and may differ from prospectus index. Some indexes are not available for full period of the fund. Information from sources deemed reliable, but its accuracy cannot be guaranteed. Performance is historical and does not guarantee future results. Fund returns are net of fund expenses; indices are not subject to expenses.

Index used for "Index Since Fund First Full Month" is the first index displayed below the fund. For example, DFA US Core Equity 1 (DFEOX) is measured against the Russell 3000 Index.
